

BUILDING Energy Efficiency in Nepal (BEEN)

Systemic approach to drive transformative changes in building sector built on four key pillars.

MARKET SYSTEM

BEEN is expanding market segments for energy-efficient (EE) products and services in Nepal's building sector.

Key Results

222,656 number of people made aware about the benefits of EE buildings

8 showcase buildings designed/built

Visit to showcase building of the technical staffs of Gorkarneshwor municipality

BEEN's Green exhibition in Changunarayan municipality for raising awareness

Demo wall handover to Changunarayan Municipality

Digital awareness post

FINANCIAL INSTRUMENT

BEEN is collaborating with financial institutions to develop green financial instruments to enable to access to preferential loan.

Key Results

Two of the largest commercial banks of Nepal are offering preferential loan to incentivise for uptake of energy-efficient buildings.

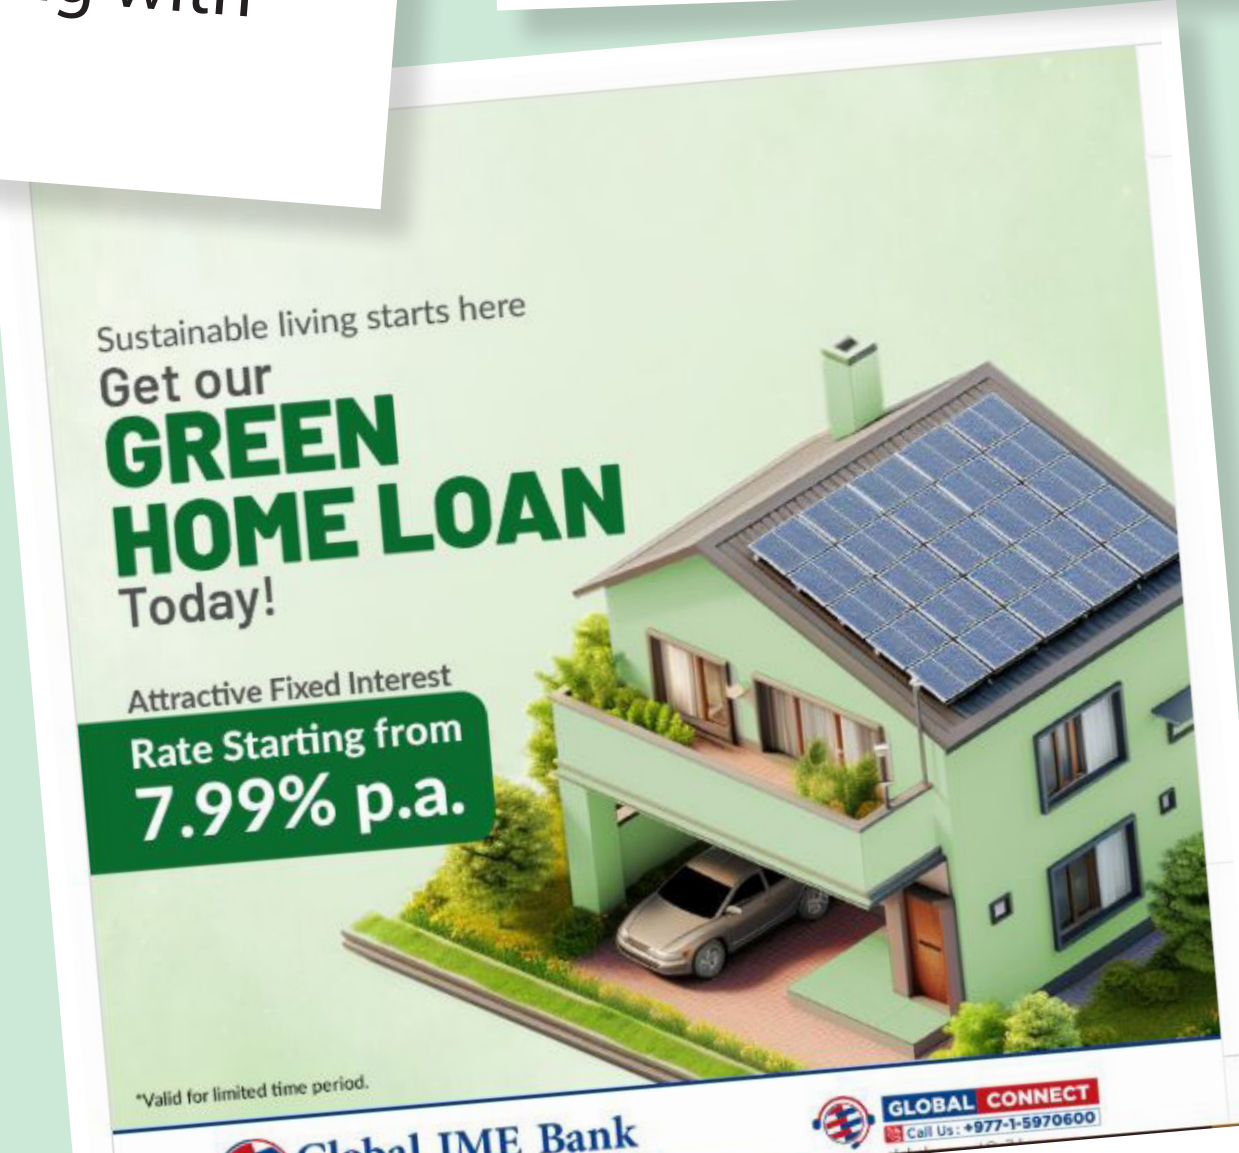

Memorandum of Understanding signing with Nabil Bank

Nabil bank's Sustainable Housing Loan

Memorandum of Understanding signing with Global IME Bank

Global IME bank's Green Home Loan

CAPACITY BUILDING

BEEN is fostering a sustainable, low-carbon building sector through targeted trainings.

Key Results

535 MSMEs trained on energy efficiency measures.

158 buildings designed/built with energy efficiency & renewable energy measures.

Training of Design MSMEs

Training on efficient Solar Thermal Hot Water System

Training on production of Compressed Stabilized Earth Block in Mustang

On-the-job training on energy retrofitting of a school in Dhunche, Rasuwa

POLICY ENVIRONMENT

BEEN is supporting government to create enabling policies to promote energy efficiency in building.

Key Results

24 municipalities approved energy efficient building by-laws or Standard Operating Procedures (SOP) for the first time in Nepal.

Technical support to federal government to finalize Green Building Guideline for Nepal

Memorandum of Understanding signing with DUDBC

Bagmati provincial workshop

Felicitation of Municipalities

Official launch of by-laws, 2080 of Dhulikhel Municipality integrating energy efficiency
